11. The Budget estimates dealt with in Resolution 8 above include reprovision for certain * works or portions of works specially sanctioned, but which could not be completed in 1887—88, owing, in the case of the well, to its being full of water until very recently, and, in the case of metalling roads, the prevalence of cholera at the time best suited for that work. The other works were proposed and taken up rather late in the year. The works referred to are as given below :—
